- Integration
- Migration to MS SharePoint 2010
- MS SharePoint staffing

CAPABILITIES

CONSULTING

Our knowledge and experience will help to understand whether MS SharePoint is a good match for your business and if so, how to obtain the maximum of its benefits.

DEPLOYMENT & CONFIGURATION

ScienceSoft provides services of installing and configuring MS SharePoint 2003/2007/2010. Our certified SharePoint experts will help you to find, configure and install the best solution to match your specific business needs.

CUSTOMIZATION & MAINTENANCE

You will be impressed with the effectiveness and elegance of the solutions we offer. ScienceSoft also takes care of the maintenance of your customized solution that will allow you to cut your maintenance budget.

INTEGRATION

ScienceSoft will help you to get more added value from the software you are already using. Integration of SharePoint-based systems with other software (CRM, ERP, MS Office etc.) will increase productivity of your business without high investments.

MIGRATION TO MS SHAREPOINT 2010

Our certified and highly experienced consultants will analyze your MS SharePoint portal configuration and provide clear and reasonable plan of migration of your data and users to a new 2010 server.

MS SHAREPOINT STAFFING

Our experts can become a valuable part of your in-house or off-site projects. Staffing projects with ScienceSoft SharePoint consultants is a cost-effective solution compared to hiring permanent staff or bringing in expensive local consultants.

SUPPORTED TECHNOLOGIES

DOCUMENTMANAGEMENTFORBUSINESSCONSULT

BUSINESSCONSULT

Law firm

ScienceSoft delivered an enterprise document management system that automated a vast scope of everyday routine and allowed the customer to focus on the core business.

INTRANET PORTAL FOR INTOPEOPLE

ScienceSoft has developed a unified intranet portal that integrated business processes of two merging companies. The project was extremely challenging but ScienceSoft found a way to handle it in a smooth manner and brought the project to success.

SHAREPOINT CONSULTING FOR E-SEAL

Having analyzed the customer's business needs ScienceSoft created and configured a corporate portal covering BI, reporting, document management, and data importing functions. Visible and standardized corporate processes allowed attracting valuable investors to the company.
